Extension management

Extensions is a new feature available in titra versions from 0.53.0. Official extensions can be retrieved from our Extension Store.

- Install extension

Install extension

Extensions is a new feature available in titra versions from 0.53.0. Official extensions can be retrieved from our Extension Store.

1. New extensions can only be installed by administrators. If you have the necessary access rights you can navigate to Administration > Extensions

   image-1626869165885.png

2. Choose the extension file (distributed as .zip) and wait for it to upload. The extension will be processed in the titra backend, once this process is complete the extension will be listed underneath the Add Extension area
